HERMENEUTICS PART ONE: OLD TESTAMENT NARRATIVE AND PROPHETS

a 5-week class with Jim Leffel

Hermeneutics is the *principles* and *process* of interpreting the bible. This five week class explains and illustrates how to interpret two key parts of the Old Testament: the historical books and the prophets. A step by step worksheet is provided for each literary type so students learn the inductive method and immediately put it into practice in an interactive classroom format. The goal of the class is to cultivate a deeper sense of confidence in students' ability to plumb the depths of scripture for themselves and to cultivate a deeper connection to the Lord through His living word.

GRIEFSHARE: UNDERSTANDING YOUR GRIEF

a 10-week seminar with John Montgomery

It's sometimes hard to move on in life when you are still dealing with the grief, emptiness, and confusion that happens after a loved one dies. Whether your loss is recent or in the remote past, the GriefShare seminar is a beneficial tool in understanding of the impact of death on our lives. GriefShare is a 10-week seminar and support group which features biblical teachings on topics such as the different effects of grief, the "why" issue of death, how joy and pain can coexist, how God uses suffering to help us grow, what suffering tells us about ourselves, and how suffering helps us to serve others. You'll learn how to go through a healthy season of grieving, then begin transitioning to emotional and spiritual wholeness.
